Educational value/ Learning Objectives:

Fold fun is one of the games included in MathPlay's package. This company focuses on making maths education insightful and fun, lowering the threshold for maths lessons.

Recommendations for use:

Fold fun consists of 50 folding papers from level 1 to level 50. You can use it in class or as a relaxing activity during break. Downside is that if you've folded a paper, the puzzle is solved and you can not use the paper again.

Math2Play has a YouTube channel where he explains the folding puzzle. The channel provides extra help and explanation.
